

William Rosado Pérez

Bayamón, PR | 939-264-3232 | williamarosado@gmail.com

PROFESSIONAL SUMMARY

IT Support professional with a Bachelor's degree in Computer Science and hands-on experience in Help Desk and database support. Skilled in diagnosing hardware, software, and connectivity issues, supporting end users on-site and remotely, and documenting technical support activities. Experience with SQL Server, networking fundamentals, and Windows OS support. Bilingual in English and Spanish.

TECHNICAL SKILLS

Technical Support: Help Desk, End-User Support (on-site and remote), Remote Support Tools (AnyDesk), Hardware/Software Troubleshooting, Technical Documentation, Ticketing Workflow

Networking: LAN/WAN Fundamentals, Router & Modem Configuration (Basic), Cabling & Connectivity Support

Systems & Data: Windows OS Support, SQL Server (Basic Queries, Backups, Data Handling), Python (Basic)

Productivity Tools: Microsoft Excel, Word, Access; Google Workspace (Drive, Docs, Sheets, Gmail, Calendar, Meet)

Other: Bilingual English/Spanish, Customer Service

PROFESSIONAL EXPERIENCE

Help Desk / Database Support – Solutions By Design | Bayamón, PR Dec 2024 – Present

- Provide on-site and remote technical support to internal users, diagnosing and resolving hardware, software, and connectivity issues.
- Resolve day-to-day technical support requests and assist users with troubleshooting and issue resolution.
- Assist with system setup and troubleshooting tasks.
- Assist with SQL database tasks, including basic queries, backups, and data validation.
- Assist with network setup and maintenance, including router configuration, cable installation, server restarts, and diagnosing internet connectivity issues.
- Perform quality assurance reviews of institutional websites (WIOA Bayamón and COC), verifying that uploaded content (text, news, galleries) and design are correct, consistent, and free of duplicates.
- Log and track user support issues in an Excel-based ticketing log.
- Document support activities and maintain accurate system records.

Help Desk (University Practice) – Plavica Auto Glass Center | Cataño, PR Mar 2024 – Apr 2024

- Assisted in implementing a ticketing workflow process for customer support requests.
- Coordinated technical and customer-related support tasks.
- Supported customer service system improvements.

PROJECTS

Service Billing System – Internal Web Application (Pending Production Deployment) | github.com/Puppywill/Service-Billing-System

- Built a web-based application as an alternative to an Access-based billing process, so service hours and invoices can be managed from any device.
- Restored a company-provided SQL Server database backup (.bak) on a local instance and used it as the data source to develop and test the application before production.
- Technicians record service hours by client and project; administrators generate manual PDF invoices (with optional 11.5% IVU) and service-hours reports by technician, client, and project, including billed and unbilled hours, exported to PDF and Excel.
- Defined login and role-based access (Admin, Project Manager, Technician): password-protected accounts, administrator-managed password recovery, login notifications for administrators, and restricted access to invoices and administrative functions.
- Performed manual functional testing of each module, retesting after every fix, and prepared a 24-page system manual.

Help Desk Ticket System – Web Application (Personal Project)

- Built a web-based IT support ticket management system with user login, role-based access, user administration, notifications, and password recovery, using SQL Server as the database.
- Generates support reports exported to PDF and Excel.

EDUCATION

Bachelor of Science in Computer Science

Aug 2020 – May 2024

Inter American University of Puerto Rico – Bayamón Campus

CERTIFICATIONS

Google Cybersecurity Professional Certificate – Google / Coursera

Nov 2024
